EDUCATION

UNIVERSITY OF WESTMINSTER, UK | IIT

BSc (Hons) in Computer Science

Colombo

Expected May 2028

ANULA VIDYALAYA NUGEGODA

Advanced Level Examination (Physical Science Stream)

Nugegoda

(2009-2022)

PROJECTS

SAFETY ON SPEED – CROSS PLATFORM MOBILE APPLICATION (NODE.JS ,REACT ,REACTNATIVE) (2026)

- Developed a **mobile safety app** using **React Native (Expo)**, **TypeScript**, and **Node.js (Express)** with **RESTful APIs** • Implemented a **one-tap SOS system** triggering **automated calls (119, guardians)** and **real-time GPS tracking**
- Integrated **Twilio Voice API** for **automated calls with pre-recorded messages**.
- Used **Google Maps & Places APIs** and the **Haversine formula** to **calculate and rank nearest emergency services**.
- Built **real-time features** including **live tracking**, **heat maps**, **safety ratings**, and **contact management**.

EMPLOYEE MANAGEMENT SYSTEM (JAVA OOP PRINCIPLES, SPRINGBOOT, THYMELEAF) (2025)

- Developed a **full-stack Employee Management System** using **Spring Boot** and **Thymeleaf**.
- Implemented **CRUD operations** with **Spring Data JPA** and **Java Collections** for efficient employee data management.
- Applied **Java OOP principles** and integrated **Spring Boot controllers/services** for modular and maintainable backend.
- Built **interactive web pages** with **Thymeleaf** and **JavaScript**, including **dynamic content**, **conditional rendering**, **loops**, **data binding**, and **client-side validation**.

GRAPH ACYCLICITY VALIDATOR USING ADJACENCY LISTS AND REVERSE MAPPING (ALGORITHMS) (2026)

- Implemented a **high-performance system** to detect cycles in directed graphs using the **Sink Elimination Algorithm**.
- Optimized graph operations by implementing an **Adjacency List** and a **Reverse Map**, ensuring efficient vertex removal and real-time sink identification

LOGIN AUTHENTICATION SYSTEM (JAVA, HTML, MAVEN) (2025)

- Developed a **web login system** using **Java** and **HTML**, implementing secure user authentication and session management.
- Built **login and registration forms** with **client-side validation** using **HTML/JavaScript**.
- Applied **server-side authentication logic** in **Java** to verify credentials and restrict access to protected pages.

360 - WELLNESS WEBSITE (USING HTML ,CSS,JAVASCRIPT) (2025)

- Developed a **responsive wellness website** using **HTML5, CSS3, and JavaScript**.
- Implemented **client-side form validation and DOM manipulation** for dynamic user interaction.
- Designed layouts using **CSS Flexbox, Grid, and media queries** for responsive UI.

INDUSTRY SPECIFIC SKILLS

LANGUAGES

- Python
- Java
- Javascript
- Typescript

BACKEND FRAMEWORKS

- Node.js
- Spring Boot
- RESTful APIs
- MVC
- Thymeleaf

FRONTEND AND MOBILE

- Reactnative
- Tailwind CSS
- HTML,CSS

DATABASE AND CLOUD

- MongoDB (NoSQL)
- MySQL
- Supabase
- Firebase

CERTIFICATIONS

- **MACHINE LEARNING – PDU OF INFORMATICS INSTITUTE OF TECHNOLOGY**
- **ADVANCED OOP JAVA PROGRAMMING – SIMPLILEARN SKILLUP**
- **JAVA PROGRAMMING FOR BEGINNERS – SIMPLILEARN SKILLUP**

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

LEADERSHIP

- Vice Games captain at Inter-House Sports meet (2021-2022)
- Senior Prefect of Anula Vidyalaya Nugegoda (2018-2019)

SPORTS ACHIEVEMENTS

- National Level Sharp-Shooter and Netball Player
- Represent school in multiple inter-school championships
